Skills

• Javascript + Typescript

 - Asynchronous programming, functional programming, arrow function
 - ES5, ES6+
 - DOM
 - Promise, async/await/callback
 - REST, API, Json
 - v.v...

• React JS

- State, props, functional/class components, styles
- HTML, CSS, SASS, JSX, Javascript, Typescript
- Redux, redux-thunk, redux-saga
- Hooks
- RESTful APIs, Json

Education

• Major: Mobile Developer

FPT Polytechnic College │ **Aug 2018- Nov 2020**

GPA: 3.2/4

• Activities

FPT Edu Hackathon 2019 │ **Nov 2019- Jan 2020**

Participate in project development for the environment in the era of technology 4.0

Work experience

• Developer

VNEXT Software │ **June 2020- Oct 2021**

Main responsibilities:
- React JS
- React Native
- Node JS
- PHP

• Developer

CMC Global │ **Oct 2021- Present**

Main responsibilities:
- React JS

• **Node JS**

- Express JS
- Nest JS
- Javascript, Typescript
- Microservices, gRPC
- RESTful APIs
- JWT, guard, passport, authentication, session, validation,...
- Typeorm
- Database: MongoDB, MySQL, Redis

• **React Native**

- State, props, functional/class components, styles
- JSX, CSS, Javascript, Typescript
- Navigations
- Hooks
- Redux, redux-thunk, redux-saga
- RESTful APIs, Json

• **Others**

- Next JS
- MongoDB, MySQL
- Git, npm, yarn
- Aws, nginx, s3
- English

Projects

• **Easier**

+ easy is a software solution based on AI + visualization for semiconductor industry. **+ easier (easy interaction resources) is UI library for easy frontend.** **+ easier Storybook is for developer for debug or as reference manual.**	**Present- Oct 2021**

- **Tech stack:**
  + React JS
  + Storybook, material UI
  + svg, canvas, webgl
- **Features:**
  + *EuiGroupTable, EupGroupBarPlot, EupWafermapPlot, EupScatterPlot, EupHistogramPlot,...*
  + Custom multi language system
- **Sources:** private

• **Honda-Dros**

Honda-Dros is an application used to manage stores of Honda Vietnam, an application that helps save customer information, inspect, repair and replace parts.	**Oct 2021- Aug 2021**

- **Tech stack:**
  + Backend: *Nest JS, Typescript, MySQL, Redis,...*
  + Frontend: *React native, Typescript, Redux-thunk*
- **Features:**
  + *Authentication, notifications, mailer*
  + *Customer manager*
  + *Dealer manager*
  + *Health check*
  + *Repair service,...*
- **Sources:** private

• **Varum**

A personal blog and forums website	**Oct 2021- Aug 2021**

- **Tech stack:**
  + Backend: *Nest JS, Typescript, MySQL, Aws*
  + Frontend: *React JS, Typescript, Redux-thunk, Sass*
- **Features:**
  + *Authentication, Facebook login*
  + *Mailer*

+ *Show post, forums*
  + *Search posts, create post*
  + *Create forums, likes, comments*
  + *Statistical*
- **Sources:**
  + *https://github.com/tranquocviet226/varrum*
  + *https://github.com/tranquocviet226/varrum-web-user*

• Nishimu

A web-app about IoT project used in agriculture, collects data from sensors and gives warning to users. | **Oct 2021- Jan 2021**

- **Tech stack:**
  + Backend: Nest JS, Typescript, MongoDB, Nest
  + Frontend: *React JS, Javascript, redux thunk, react router*

- **Features:**
  + *Authentication*
  + *Maps*
  + *Notifications*
  + *Charts*
  + *Sensors management, notifications management, note management,...*
  + *ioT service*
- **Sources:** Private

• Smart shopping

An ecommerce websites | **Jan 2021- June 2020**

- **Tech stack:**
  + *PHP, Laravel, MySQL*
  + React native, redux-thunk, navigation
- **Features:**
  + *Authentication*
  + *Admin manager*
  + *Cart*
  + *Orders*
  + *Payment*
  + *Notifications*
  + *Mailer*
  + *Affiliate, CMS,...*
- **Sources:** Private
